Evo™

Bruce Fifield,
Lead Designer and Founder Studio Fifield,
Milan, Italy

"The development of Evo's design derives its inspiration from this geometrical relationship and is characterized by the harmonious formal balance it represents."

Our Science. Your Comfort.

The Evo task chair is engineered with your comfort in mind. Focused on the user experience, it's made for dynamic movement and postures. The unique contoured frame offers comfortable lumbar support for engaged task behaviors, while the arched open-arm facilitates side-seated and multi-direction interactions. A sophisticated thick-seated cushion reduces pressure points and aids weight distribution, with a simple-touch control for effort-free ergonomic adjustment.

Evo is a refined aesthetics chair that intuitively adapts to your reclined position, for moving between tasks without the need for adjustment. Evo suits wherever and however you work.

Your World of Wellness

Evo is a thoughtfully designed chair focused on ergonomics, its quality build combining intuitive controls and automatic weight-activated tension for healthier performance levels as well as overall well-being within the workplace.

Work Better. Feel Healthier.

Featuring unrestricted movement and cross-functional interaction, Evo is easy-to-use and offers ergonomic controls that allow you to ‘feel better’ for greater comfort and well-being. Paired with the height-adjustable workstation, it allows for a range of postures and work styles.

Black Plastic Frame and Metal Base

Simple Touch Control
Easy-to-access controls are integrated for a cleaner aesthetic.

Seat Depth Adjustment
Adjust the depth up to 7cm to optimize comfort.

4D Armrest Adjustment
Arm width, angle, height and depth are all adjustable, with multiple postures and lateral support when reclining.

Our Design, Your Comfort

Highlighted by its weight-activated recline mechanism ensuring no additional tension adjustment, Evo’s intuitive controls and specially formulated seat foam offer a completely comfortable seated experience.

Headrest Adjustment
Comfort and support are offered through the adjustable headrest, relieving neck tension.

Lumbar Adjustment
Upright back support through the contoured frame, with its lumbar adjustable to 25cm height for ultimate comfort
