## Playces: Work, Play, Refresh

A sense of place is key to a successful and efficient community.

With the transcendence of physical space and digital boundaries, human interaction now happens anytime, anywhere with anyone and everyone. As communities without boundaries grow, a sense of belonging, or workplace, is more important than ever. Collaboration and other social and playful interactions facilitate exploration, innovation and work efficiency, driving economic outcomes.

Combining the words play and places, we created Playces.

## A Unique Sense of Place

Playces is a furniture collection created to offer unlimited curation of work neighbourhood communities.

Each Playces setting provides a unique and modern sense of space, delivering diversity and choice to create delightful places that support purpose and belonging for work, play or refresh.
