KOKUYO

Compact form and optimal seating comfort.

The chair to suit flexible work scenes.

Function

Supports the working posture from collaborative work to solo work.

Forward-tilt

Weight operated forward tilting seat when leaned forwards. The back and seat angle is widened to reduce pressure on the thighs. Forward tilt angle: 5°.

Auto-adjust Reclining

Weight sensitive reclining mechanism automatically adjusts the backrest-reclining tension. Design attributes to support working posture. Reclining angle: 12°.

Seat Height Adjustment

Adjust the seat height to personal preference according to desk height and task at hand. Seat height adjustment range Standard chair: 90mm High chair: 190mm

pallo

Design

Compact design while maintaining sufficient seating comfort. The short profile arms minimize the hindrance between the desk and against the surrounding furniture, enabling to position and seat closer to the table. The rounded form of the chair expresses a soft impression, and the rounded seat prompts smooth and easy access.

Long life

The backrest and seat are easily removable and replaceable with new without the use of tools. Long-life construction capable of changing the look and feel, and replacing used components with new.
